

My RESIDENCE *Case Study*

RESIDENCE 7 WINDOWS | PAINSWICK ● CHALK WHITE

My RESIDENCE

Case Study

This beautiful home was given a fresh, new look with Residence 7. The homeowner opted for Painswick externally, and Chalk White matt finish internally.

The Painswick exterior really complements both the red brick work and white render, giving his home a subtle pop of colour, while the leaded glass top lights add character. The large bay windows were finished with a smooth style plinth on each corner, creating a contemporary look flooding the rooms with plenty of natural light.

R7 in Chalk White was the ideal colour choice to match the modern interior of this home, blending in with the homeowners existing aesthetic seamlessly.

Double glazed windows - 28mm glazing achieves up to $A/1.2W/m^2K$
