Flexible innovative solutions High performance systems

APS is a leader in the design and manufacture of architectural aluminium glazing systems for the commercial construction industry. We offer a comprehensive range of systems from curtain walling to windows and doors, with an extensive

list of accessories and options. Based in Northern Ireland we extensively distribute throughout the UK and Ireland and we pride ourselves on technical design, developing and delivering an innovative product and service.

Polyamide Range

Windows

Top hung - open out
Bottom Hung - open in
Side hung - open out
Side hung - open in
Tilt and turn

Tilt and turn gearing and handles
Folding cam openers
Electrical Actuators

Doors

Multi point locking with Rhino bolts
Emergency exit push bars + external access
Emergency exit touch + external access
Heavy duty restrictors
Low rise threshold

Sustainability and Commitment

APS takes its environmental responsibility seriously. We believe in reducing our impact and carbon foot print, which applies to our suppliers and our clients. We are accredited with ISO14001 and operate an environmental management system.

Material:

In terms of sustainability, aluminium is one of the best materials available. Its natural strength, lightness and durability makes it the ideal material for meeting architectural glazing requirements.

For our own production, we use recyclable aluminium billet 100% of the time and all production waste is recycled. Our extrusions carry a life expectancy of over 50 years. Significantly higher than other materials and of course, it's 100% recyclable.
