● aluminium & plastics systems

We offer an appealing balustrade system to complement our fencing and decking options. Featuring spindles and posts made from composite materials, these additions beautifully complete the boundaries of decking, particularly beneficial for balconies or verandas. Our available colours include black, brown, and grey.

This innovative design eliminates the need for natural wood while also ensuring that your patio maintains a clean, slick appearance. Our balustrade range is the perfect addition to enhance and modernise your outdoor area.
